

Water savings with AquaLine Zero

VOITH

With the AquaLine Zero water management system, all process water is treated in a water treatment facility and returned to the production process. This allows a reduction in fresh water consumption of around 3,750,000m³ (equaling 80%) in comparison with comparable mills.

Project: **New packaging paper line**

Customer: **Paper mill, Germany**

Paper grade: **Corrugating Medium, Testliner**

Comparison of fresh water consumption at a production of 750,000 t/a
