### **Voith Paper offers rebuilds of medium-sized paper machines to increase production capacity by up to 15%**

2017-08-10

**On June 10, 2017, Voith Paper, Huazhang Technology, Jianhui Paper and Jinzhou Paper reached an agreement to rebuild the headboxes and shoe presses of existing paper machines. Under this new contract, Voith Paper has been commissioned to rebuild the headboxes and shoe presses of Jianhui PM 3 and PM 4 as well as Jinzhou PM 3 and PM 4.**

The rebuilds will lead to an increase in production capacity of 10 to 15% and a considerable improvement of the paper quality, such as an improved grammage profile and boost in paper formation. As a technology leader, Voith Paper continuously offers top performance in every sector over the entire life cycle of the paper machine while providing resource-saving solutions to ensure the sustainable success of our customers. Along with eight headboxes and two Tandem NipcoFlex, the scope of supply includes two CB turn, rolls, sleeves, press felts and services.

This is not the first cooperation between Voith Paper, Jianhui Paper and Jinzhou Paper. This rebuild contract not only shows how much the clients recognize Voith's high-quality products, technology and service, but also lays a solid foundation for long-term strategic cooperation between the parties. This new cooperation further demonstrates the position of strength Voith Paper has in the market for rebuilding medium-sized paper machines in China.

#### **About Huazhang Technology**

With a major market share in automation within the Chinese papermaking industry, Huazhang Technology Holding Ltd. provides research, development, design, manufacturing, sales and value-added services for premium comprehensive one-stop automatic systems and solid-liquid separation products.

## About Jianhui Paper

Founded in 2002 with a total investment of 4.3 billion yuan, Jianhui Paper occupies an area of 480,000 square meters and is situated within the No. 1 Industrial Park in Huangchong Village, which is part of the Dongguan town of Zhongtang. The company specializes in manufacturing high-grade single-coated duplex boards and environmentally friendly kraftliner, boasting world-leading production capacity.
