A Voith and Siemens Company

VOITH
Engineered Reliability

Voith Hydro Canada

Voith is present in all Canadian provinces and territories and plays an important role in the Canadian hydropower market.

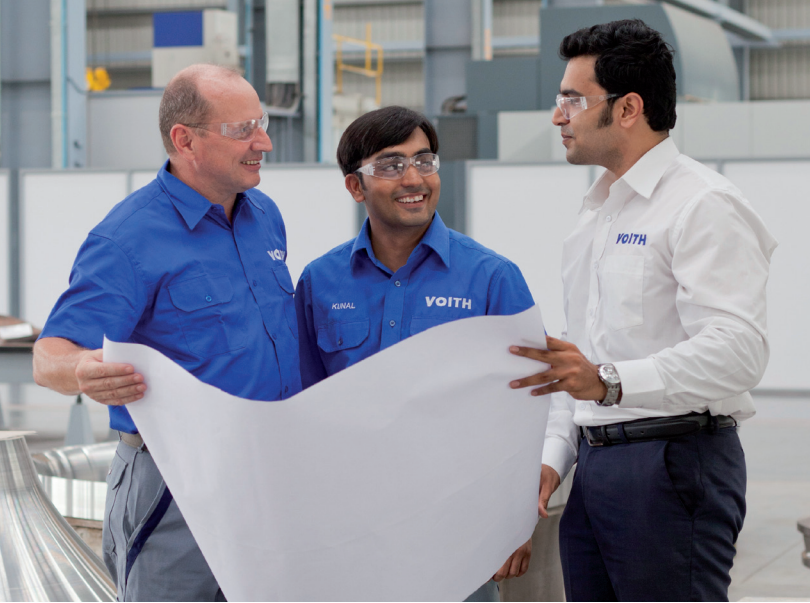

Headquartered in Brossard, Quebec, Voith Hydro Canada is focusing on customer service, business development, project management and project administration for Large Hydro, Small Hydro, Automation and the Service Business. The office also gathers a strong engineering team, capable to support projects and services from a planning phase through implementation to plant commissioning.

Additionally, Voith Hydro has a state of the art plant in Mississauga, Ontario, that is recognized as Voith's global Centre of Excellence for Coil Manufacturing, which includes the Canadian Service Centre.
