### Voith receives a four-year service contract for automatic transmissions

2021-01-20

- Voith won the tender for a four-year service contract for automatic transmissions of the municipal bus fleet in Lorient, France.
- Apart from repairing and replacing its own DIWA.5 automatic transmissions, Voith will also supply replacement gearboxes from other manufacturers.
- The short delivery time for replacement and repair gearboxes was a decisive factor when placing the order.

**NOISY-LE-GRAND/LORIENT, FRANCE.** In November 2020, Voith won the tender for a four-year service contract from the French operating company RATP Dev. The contract covers gearbox repairs and the delivery of replacement gearboxes for the bus fleet of the municipal transport company CTRL (Compagnie des Transports de la Région Lorientaise) in Lorient. Apart from repairing and replacing its own DIWA.5 automatic transmissions, Voith will also supply replacement gearboxes from other manufacturers. The budget for the order is EUR 360,000 over four years.

The short delivery time for replacement and repair gearboxes was a decisive factor when placing the order. For a preventive overhaul, Voith offers high-quality replacement gearboxes and components for the central gearbox assemblies. This reduces bus downtimes, which in turn reduces the costs of repair and overhaul. "Thanks to new sales and service models, we are always available for our customers. As a result, spare parts can be supplied with unprecedented speed of response, and customer-specific service solutions can be implemented," says Pierre Lévy, Sales Manager at Voith Turbo in France.

With 58,000 inhabitants, Lorient is the largest city in the French department of Morbihan in Brittany. RATP Dev, a subsidiary of the Paris public transport company RATP, manages the urban transport network on behalf

of CTRL. This network covers 25 cities with a population of around 200,000 in total. The bus fleet comprises about 100 vehicles from various manufacturers. Around half of the vehicles are currently equipped with DIWA automatic transmissions from Voith.

## About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, oil & gas, paper, raw materials and transport & automotive. Founded in 1867, the company today has more than 19,000 employees, sales of € 4.3 billion and locations in over 60 countries worldwide and is thus one of the larger family-owned companies in Europe.

The Group Division Voith Turbo is part of the Voith Group and a specialist for intelligent drive technology, systems as well as tailor-made services. With its innovative and smart products, Voith offers highest efficiency and reliability. Customers from highly diverse industries such as oil and gas, energy, mining and mechanical engineering, ship technology, rail and commercial vehicles rely on the advanced technologies and digital applications of Voith.

For the next four years, Voith will be the sole provider of transmission service for the bus fleet of CTRL in Lorient. Picture: Ville de Lorient
