### Voith employee inducted into Paper Industry International Hall of Fame

2024-06-26

**APPLETON, Wisconsin.** On June 19, 2024, Christian Schiel, a former Voith employee, was posthumously inducted into the Paper Industry International Hall of Fame (PIIHOF) in recognition of his many innovative developments that contributed greatly to modern paper machine designs. The award was accepted by Michael MacGregor, a former colleague of Schiel and a co-sponsor of the award nomination, during a presentation at the Wisconsin Paper Council's annual meeting in Green Bay, Wisconsin.

Since 1992, the PIIHOF has honored and recognized more than 140 giants in the paper industry from around the world, including Johann Matthaeus Voith and Dr. Herbert Ortner, a former Voith employee.

"During his lifetime, Christian Schiel was an extraordinarily gifted inventor and innovator of papermaking technology," said Ron Crotogino, who is also a previous colleague of Schiel and nominated him for the award. "Seeing his innovations come to life in a production machine was the only reward Christian ever sought. Today's formal induction to the Hall of Fame is an outstanding recognition of the innovations made by this remarkable man."

Schiel built his career by completing a three-year apprenticeship as a millwright, and ultimately earned a degree in mechanical engineering from Oskar von Miller Polytechnikum in Munich, Germany in 1954. He then began working for Voith in Heidenheim, Germany, as a Design and Planning Engineer. During his career, he also spent five years in North America working at the Powell River Company in British Columbia, Canada and the Mead Corporation in Chillicothe, Ohio. Upon returning to Voith in 1962, Schiel embarked on a productive career centered on pioneering advancements. Throughout most of his career, Schiel was employed as the Chief Development Engineer for papermaking technology at Voith in Heidenheim, Germany.

Over the years, Schiel was named as inventor or co-inventor on 149 U.S. patents and a number of additional patents in other jurisdictions. His most impactful innovations include the fabric press; fabric covered press rolls; the technology to manufacture suitable press sleeves; flexible-nip presses; the technologies for the manufacture of flexible roll sleeves; numerous compact press configurations that took full advantage of new press designs; and a series of forming devices based on the roll-forming concepts for the manufacture of a broad range of paper grades.

“Christian was key in the development of many Voith Paper machine technologies and designs that are in use today,” said Rob Crossman, President, Products & Services North America, Voith Paper. “We thank the Paper Industry International Hall of Fame for honoring the life and contributions of a colleague who has made such an important impact on our industry.”

### **About the Voith Group**

The Voith Group is a global technology company. With its broad portfolio of systems, products, services and digital applications, Voith sets standards in the markets of energy, paper, raw materials and transport & automotive. Founded in 1867, the company today has around 22,000 employees, sales of € 5.5 billion and locations in over 60 countries worldwide and is thus one of the larger family-owned companies in Europe.

The Group Division Voith Paper is part of the Voith Group. As the full-line supplier to the paper industry, it provides the largest range of technologies, services and products on the market, and offers paper manufacturers integrated solutions from one source. The company’s continuous stream of innovations facilitates resource-conserving production and helps customers minimize their carbon footprint. With its comprehensive automation products and leading digitalization solutions from the Papermaking 4.0 portfolio, Voith offers its customers state-of-the-art digital technologies to improve plant availability and efficiency for all sections of the production process.

### **About the Paper Industry International Hall of Fame**

The Paper Industry International Hall of Fame, Inc., (PIIHOF) is a nonprofit organization that recognizes people who have made preeminent contributions to the paper industry worldwide by inducting them into the Paper Industry International Hall of Fame. The PIIHOF is the only one of its kind in the world and was created to foster a greater understanding of the paper industry - its values, heritage, and influence on the public’s quality of life. The PIIHOF is located at the Atlas Science Center in Appleton, Wis. Learn more here: <https://www.paperhall.org/>
