### New Chief Service Officer joins Voith Hydro

**HEIDENHEIM, GERMANY.** Since July 15, 2024, Sunil Pandiri is part of the global Board of Management of Voith Hydro. As Chief Service Officer he will continue to strategically expand the company's service portfolio. The role was newly created in order to meet the requirements of customers and their hydropower plants in the best possible way; making service a priority on top level.

Sunil Pandiri started his career in 2004 as a project manager at Jindal Steel & Power Ltd. in India. In 2006, he joined Siemens and in the following years held various positions in international sales, product management, strategy, operations, and general management functions. Between 2017 and 2019 he was responsible for the global service business for steam turbines. From 2020 to 2022, he was CEO of the Siemens portfolio company Sykatec GmbH. Most recently, he held the position of CEO Region North Europe & Middle East at Siemens Gamesa.

In addition to his mechanical engineering studies, Sunil Pandiri holds an MBA degree from IESE Business School (Spain), a digital diploma from IMD (Switzerland) and completed a Harvard General Management Program (USA).

#### About the Voith Group

The Voith Group is a global technology company. With its broad portfolio of systems, products, services, and digital applications, Voith sets standards in the markets of energy, paper, raw materials and transport & automotive. Founded in 1867, the company today has around 22,000 employees, sales of €5.5 billion and locations in more than 60 countries worldwide and is thus one of the larger family-owned companies in Europe.

Voith Hydro Division is part of the Voith Group and a leading full-line supplier and reliable partner for hydropower plant equipment. Voith

develops customized long-term solutions and services for large and small hydropower plants all over the world. Its range of products and services covers the entire life cycle and all the main components for large and small hydropower plants, from generators, turbines, pumps, and automation systems to spare parts, maintenance and training services and digital solutions for intelligent hydropower.
