**VOITH**

**Technical training  
for hydropower staff  
worldwide  
HydroSchool**

# Sharing knowledge worldwide

Voith HydroSchool is paving the way for a new, knowledge-based future for customers and partners – with the whole world in its sights. HydroSchool delivers training solutions for all hydropower-related topics, thus, bridging the gap between technology and industry experience.

HydroSchool offers three training types: public courses, open to the general public which are covering topics of all hydropower plant types, dedicated trainings, for customers and partners, as well as comprising training programs tailored to specific needs.

---

## Public courses

- **Focus:**  
According to the course outline

## Training programs

- **Focus:**  
Comprising individual solution according to specific needs
  - **Location:**  
Voith location and / or on customer's site
-

# Benefit from the extensive knowledge of our subject matter experts

---

“We help attendees understand the machinery they’re working with. They go home and see the machine more clearly, with different eyes than before, which improves their ability to create efficiencies.”

**Christian Fuhrmann**

Head of Electrical Support and Trainer, Voith Hydro

---

Our subject matter experts are:

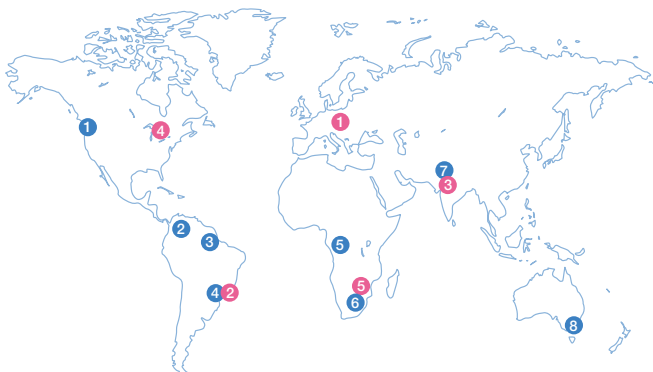

- Voith engineers and product or plant experts
- Maintenance and operation specialists
- Members of management

# Success means evolving with our customers globally

---

Customer references all over the world
