

Energy savings with EcoChange W

VOITH

With the EcoChange W turn-up device installed at a Sirius reel, a turn-up efficiency of 99.5% is guaranteed. The increased production capacity results in 0.1% energy savings on the complete paper machine that equals savings of 90,000 kWh/a or 0.2 kWh/t.

Project: Optimization of turn-up process

Customer: Paper mill, Poland

Paper grade: Testliner

Comparison of energy consumption on complete paper machine (kWh/a)
